

Community Health Certificate Program

Thinking About Community Health

Making health equity a priority

Field Trips

Monroe/ Green County (Rural)

Milwaukee (Urban)

Madison (Health Equity)

Journal Reflections

“The government should be helping to pull together strong leadership, strategic partnerships, flexible funding, data, and infrastructure to take care of people.” -Abraham

“The health care system needs to incorporate all people in their communities to help people find the necessary resources and care they need.” -Claire

“Strategies I would recommend to enhance access to health care include: involving community workers, integrating mental health into primary care, offering home visits, and creating a community health 1-800 number.” -Tyra

Speakers

Bria Grant - UniteMKE

Garden District Community Garden

Chris Rasch - Sixteenth Street Community Health Center

Alia Stevenson - Foundation for Black Women's Wellness

Sweta Shrestha, Tseten Yangdron, Marcia Morales Villavicencio, and Maria Schirmer Devitt - UWPHI

Bridget Craker - Green County Public Health Department

Monroe Clinic and Hospital Residents

(volunteer activity at St. John's United Church of Christ in Monroe with Dawn Meier - volunteer coordinator)

County Health Ranking Tools

“I was surprised to see the dramatic difference in ratio of patients to a doctor. The ratio in an urban area like Milwaukee is 915:1 while in Bayfield, a rural area, the ratio is 2,982:1.” - Jenna

“In Dane county poor mental health days are higher than poor physical days proving that as different communities we all struggle with poor mental health.” -Tyra

Lunch at Sabrosa in Milwaukee

Paddle boarding at Wingra Lake and electric bike rides in Madison

Lunch at Monroe Clinic and Hospital cafeteria

Fun!

Back to School, Community Health Cool!

Valuable Community Health Experiences

Integrating the connection between public health and business into our future learning (tours of sectors that work with public health officials or organizations).

What role philanthropy plays in community health and the benefits of community engagement (learn more about events or how others can participate).

Seeing how all health systems work together and the part each holds (visiting or meeting with different areas of health care and being able to see how they function).

Engagement and awareness will allow for greater experiences and newfound knowledge and appreciation.

Healthy Wisconsin Implementation Update

Wisconsin Community Health Fund

December 16, 2020

2017-2022 State Health Improvement Plan

Background

Implementation Update

- Updates on priority areas and action teams
- Annual report (2019)
- *Healthy Wisconsin* and Performance Management
- Community Resilience and Response Task Force (CRRTF): supporting partners, communities, and the COVID-19 Response Team

Next Steps for the State Health Plan

- Public input and publication of final State Health Assessment (SHA) Report
- Planning and prioritization process for next State Health Improvement Plan (SHIP)
- State Health Plan and the COVID-19 response
 - Transition from the Community Resilience & Response Task Force to Response Equity Team
 - Continued efforts for Just Recovery

Next Steps for the State Health Plan – Cont.

- Reshaping the State Health Plan
 - Build infrastructure and partnerships to address foundational causes to health inequities through policy, systems and environment change
 - Present a consistent vision for the role of public health in addressing structural inequities, social determinants of health
 - Support our partners working on secondary and tertiary prevention and treatment in priority areas

Opportunities for Engagement and Collaboration

- Input on the State Health Assessment Report and future public health planning processes and reports
- Alignment and collaboration around the advancement of priority strategies and health equity
- Representation on future State Health Plan advisory and implementation bodies
